

The CCCE is not yet for you

It's too early for me to make any commitment to decarbonise

START HERE

I am an SME working with the SBTi scheme

Talk to us as we are aligning with forthcoming SBTi recognition framework

I am willing to pledge to take reasonable efforts to reduce my carbon footprint

After the submission of the pledge you will become a CCCE signatory. You will have access to guidance material and the CCCE peer-learning forums

I have already implemented one or more measures to reduce my carbon footprint.

I have identified measures my company would like to take and now I want to go for a Bronze, Silver or Gold recognition

I commit to take one or more measure(s) to reduce my company's GHG emission

I will implement one measure with help of national or European support scheme

I will implement multiple measures using national or European support schemes, over and above a switch to green energy

I will implement all available measures through national and European support schemes

I will agree an SBTi approved target in order to decarbonise my company.

After submission of evidence of the support used you will receive a bronze seal, mention of the EC site and eligible for one-to-one technical assistance, have access to guidance material and the CCCE peer-to-peer online learning forums

After submission of evidence of the support used you will receive a silver seal, mention on EC site and eligible for one-to-one technical assistance, have access to guidance material and the CCCE peer-to-peer online learning forums

After submission of evidence of the support used you will receive a gold seal, mention on EC site and eligible for one-to-one technical assistance, have access to guidance material and the CCCE peer-to-peer online learning forums. Gold seal holders are invited to showcase their work as part of CCCE outreach.

After confirmation by SBTi of your net zero status you will receive a CCCE net zero kitemark.
