

ManagEnergy
Energy Agencies leading the energy transition

ManagEnergy

- Make local and regional energy agencies **leaders of the energy transition** by raising their skills, knowledge and visibility
- Providing **information, know-how, visibility**, and **networking** opportunities
- Boost sustainable energy and energy efficiency **investments** in European cities and regions

ManagEnergy Services

Expert Missions

Providing tailor-made training and one-to-one coaching to help agencies realise their ambition

ManagEnergy Talks

A range of Public Talks delivered by well-known climate and energy experts to inspire others to spearhead the transition

Online Seminars

Focusing on innovative techniques and tools for implementing large-scale energy transition projects

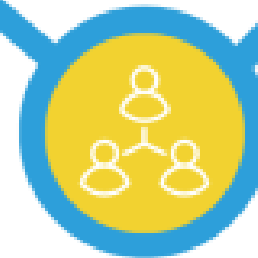

Master Classes

Increasing energy agencies' capacity to place themselves at the forefront of energy investment

Work Shadowing

Visits of innovative agencies to gain insights into their operation and structures

Masterclasses

- Designed to be engaging and action orientated
- “Homework” focused on supporting participants to develop investments/services/projects
- Examples identified by participants
 - Large scale renovation measures; District Heating/Cooling initiatives; Hydrogen; Energy Communities
- Financing solutions (PPA, EPC, ESCO etc.)
