Empowering Leaders: Insights from ManagEnergy and Remarkable Climate Leaders

Francisco Puente, ESCAN

REMARKABLE Climate Leaders - achieving climate neutrality

Duration: 36 months (Sept 2021 – Aug 2024)

Partners: 10 Partners

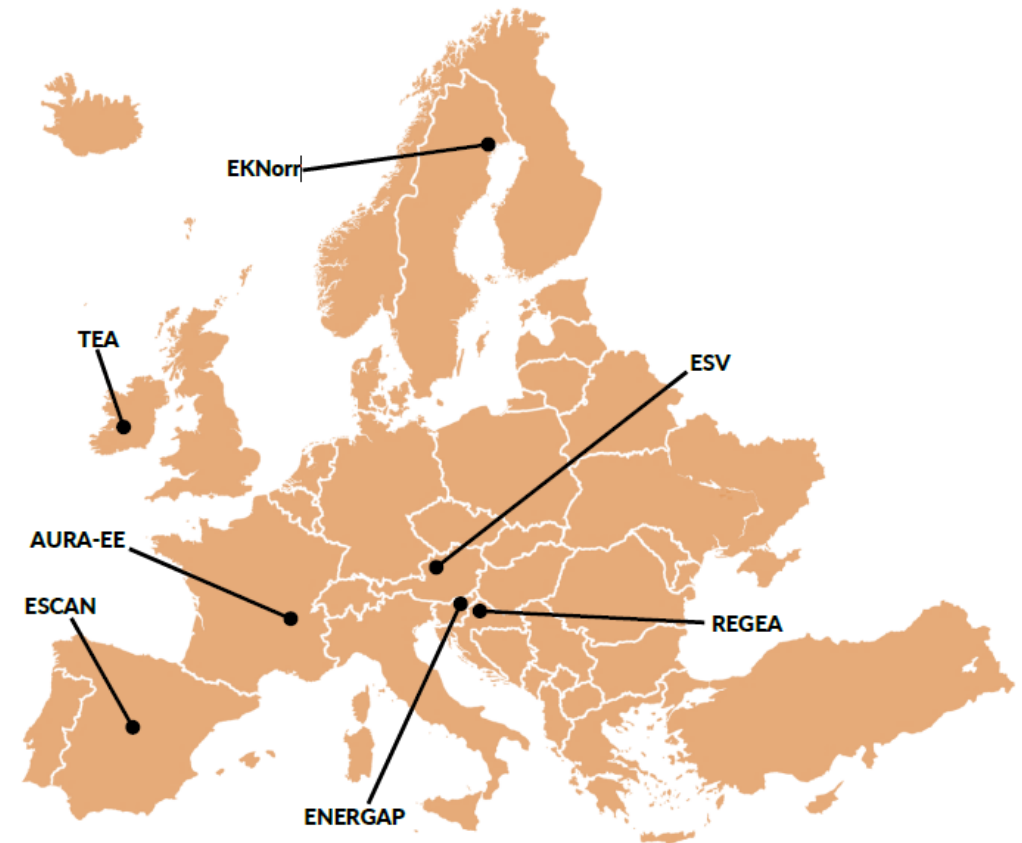

Regions: 7

Total Project Budget: €1,653,357

Climate Leadership Programme and Climate Neutrality Roadmaps were rolled out in 7 regions.

Achievements:

- the training of 125+ actors from multiple sectors,
- 60+ territorial roadmaps,
- 14 new services in support of climate neutrality,
- a network of more than 150+ leaders in the sustainable energy fields.

Project is set for completion in August 2024

- Climate leaders trained to date – 125
- Climate neutrality roadmaps completed – 60
- Climate leaders circle – 158 members

New climate services

Austria	Training programme for energy transition implementation / Energy Academy
Croatia	Integration of climate neutrality roadmaps (or similar documents) in spatial plans
France	One Stop Shop (OSS) support service for implementing climate neutrality actions
Ireland	Climate neutrality communications
Slovenia	OSS for implementing climate neutrality actions in public organizations
Spain	Supporting the development of Energy Communities within municipalities
Sweden	Support in preparation for future mobility projects

Ethnography interviews

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101024972

Co-creation workshops

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101024972

ManagEnergy

- Make local and regional energy agencies **leaders of the energy transition** by raising their skills, knowledge and visibility
- Providing **information, know-how, visibility**, and **networking** opportunities
- Boost sustainable energy and energy efficiency **investments** in European cities and regions

ManagEnergy Services

Expert Missions

Providing tailor-made training and one-to-one coaching to help agencies realise their ambition

ManagEnergy Talks

A range of Public Talks delivered by well-known climate and energy experts to inspire others to spearhead the transition

Online Seminars

Focusing on innovative techniques and tools for implementing large-scale energy transition projects

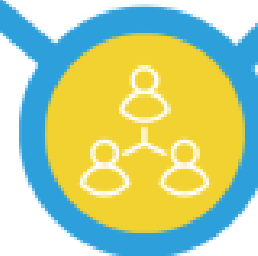

Master Classes

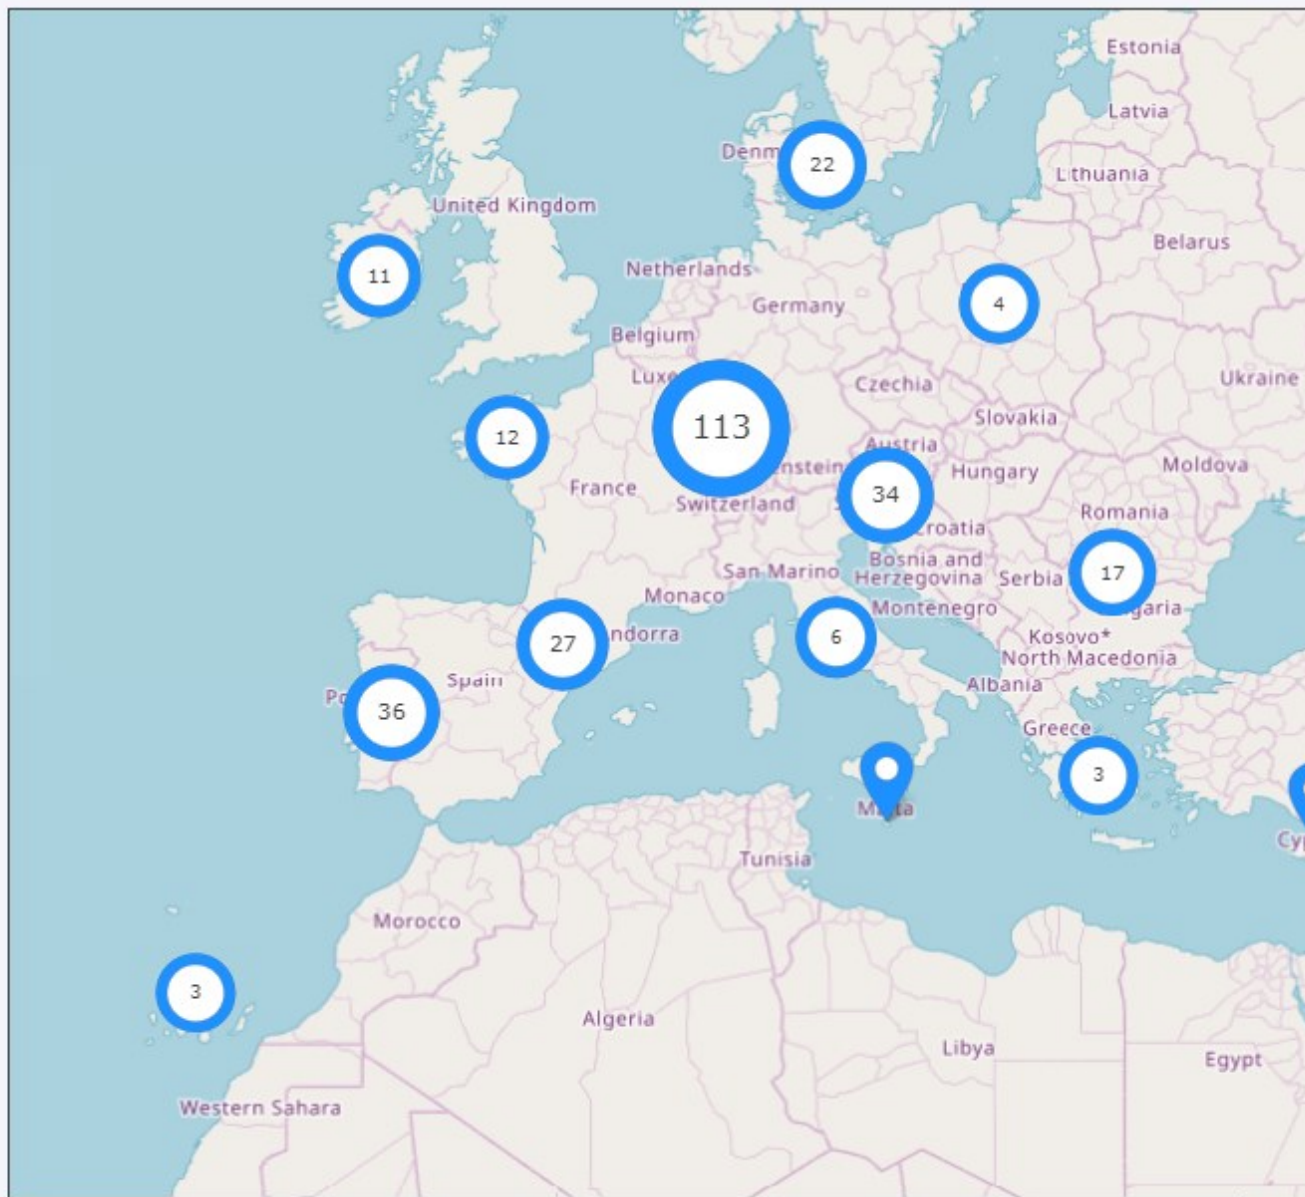

Increasing energy agencies' capacity to place themselves at the forefront of energy investment

Work Shadowing

Visits of innovative agencies to gain insights into their operation and structures

- Canary Islands
- Guadeloupe
- Martinique
- Guyana
- Réunion
- Mayotte
- Azores
- Madeira
